

Denver Union Station Construction Notification

Construction activities will begin February 22, 2010 for the Denver Union Station Redevelopment Project and will continue for the next 4 years.

First Signs of Construction -

- Traffic control will be set up on Wewatta – traffic will be one lane in each direction on the southbound side for a few weeks and then move to one lane in each direction on the northbound side.

Early activities will include:

- Removal of concrete /clearing on 17th Street
- Set up pedestrian traffic control
- Excavation for bus facility
 - Ground water will be pumped out
 - Shoring walls at Wewatta and the LRT will begin
 - Excavated dirt will be stock piled or removed
 - Very large piles 20' to 30' in height
 - Soil will have tackifier on it so it won't erode with wind or water
 - DirtGlue is environmentally friendly
- Relocation of utilities
- Begin work on the relocation of Amtrak to temporary location
 - Building improvements/tenant finishes for new facility
 - Preparation for the track and temporary platform
