

Denver Union Station Construction Update 4-16-10

Construction activities over the next 2 weeks will include:

- Excavation for the underground bus facility
 - There will be truck activity associated with this work for another week
 - A conveyor system will be set-up to remove the remaining dirt, which will be stockpiled adjacent to the excavation area
- Concrete retaining wall construction for the light rail tracks
- Various utility work - relocations and installations
- Pumping of ground water
- Removal of non-essential track
- Installation of communication fiber on Speer Blvd. between Wewatta St. and Blake St., which may require lane restrictions
- Construction activities will be on on-going on both sides of Wewatta St. between 20th St and 16th St.

Traffic and Pedestrian Configuration -

- Traffic on Wewatta St. between 16th St. and 19th St. is in a one lane in each direction on the northbound side. RTD bus stops have relocated to the north end closer to 19th St. Traffic will remain in this configuration for a couple of years. There is signage to direct traffic and bus patrons.
- Access for pedestrians traveling on 16th St. between the Millennium Bridge and Wewatta St. is on the south sidewalk. There is a fence in place to protect pedestrians. Pedestrians in this area need to be alert to light rail trains traffic.
