

## Kiewit Western Company

Kiewit is one of North America's largest and most respected construction organizations. For over 120 years, we have delivered world-class solutions to projects of every size, in every market. No project is too challenging or unique, too big or small. Our goal for every project is the same — build it safely, on time, on budget and with no surprises.

Kiewit has been working in Colorado for over 70 years and been a part of several large construction projects, including the T-REX Project, Northwest Parkway Toll Road and the Palazzo Verdi building in Greenwood Village, CO. We look forward to continuing to build Colorado and metro Denver's future.

## **Skidmore, Owings, Merrill LLP (SOM)**

Skidmore, Owings & Merrill LLP (SOM) is one of the leading architecture, urban planning, interior design, and engineering firms in the world, with a 75-year reputation for design excellence and a portfolio that includes some of the most important architectural accomplishments of the 20th and 21st centuries. Since its inception, SOM has been a leader in the research and development of specialized technologies, new processes and innovative ideas, many of which have had a palpable and lasting impact on the design profession and the physical environment. The firm's longstanding leadership in design and building technology has been honored with more than 1,300 awards for quality, innovation, and management. The American Institute of Architects has recognized SOM twice with its highest honor, the Architecture Firm Award—in 1962 and again in 1996. The firm maintains offices in Chicago, New York, San Francisco, Washington, DC, London, Hong Kong, Shanghai, and Brussels.

## **Hargreaves Associates**

At the forefront of landscape architecture for over 25 years, Hargreaves Associates continues to offer full services in landscape architecture, planning, and urban design with an emphasis on complex public projects that transform derelict and underutilized urban sites into vibrant civic amenities.

The firm's work centers on planning and design that is specific to a site including its historical context, its natural processes and the uses aspired to for that site – and it embodies a commitment to civic vitality and creative solutions that meld cultural desires, functional needs and site. The work is characterized by a philosophy of strong, simple design that responds in

innovative ways to the unique set of forces exerted upon each site from both cultural and environmental processes. This design philosophy is integrated with a clear understanding of costs, current construction techniques, and scheduling, with an all-important emphasis on the clients' needs and goals.
